EDUCATION

University of California, Santa Cruz | Santa Cruz, CA Expected Graduation: *June 2028*
Bachelor of Science in Computer Science: Computer Game Design
GPA: 3.86

Relevant Coursework: Data Structures and Algorithms, Programming Abstractions, Applied Discrete Mathematics, Computer Systems and Assembly Language, Computer Systems and C Programming, Linear Algebra, Game Development Patterns (In Progress)

CERTIFICATIONS & AWARDS

Career and Technical Education (CTE) | Precision Exams *May 2023*
Computer Science Principles

NOTABLE PROJECTS

Galaxy Grub | Phaser | 5-person Project
- Developed a futuristic sci-fi cooking game with an interactive conveyor belt, crafting, timer, scoring, and progression systems.
- Designed the game's visual assets, including backgrounds, button UI, and food artwork.
- Implemented interactive gameplay mechanics and integrated systems with level data and UI.
- Worked as a production lead to coordinate team communication, deadlines, and planning.

Toxic Environment | GDevelop | 2-person Project
- Implemented gameplay systems, including marine animal behaviors, interactive UI, and player progression.
- Developed coin collection and shop mechanics to support in-game purchases and progression.

King's Underworks | Board Game | 2-person Project
- Created half of the board's tile visuals and layout.
- Designed core mechanics such as tile rules and special cards while using a 52-card deck for movement.

LEADERSHIP & VOLUNTEER EXPERIENCE

History and Introduction to Business Teacher Aide | California High School *August 2023 – June 2024*
